Enjoy delicious [cocktails](#), like the Ride Pudding Martini, Milky Way Martini, The Spiker Hot, The Toasted Almond, and grab a bite to eat off the new seasonal food menu in a cozy festive atmosphere. You and three of your favorite friends can get into the winter spirit and join together and take shots of smooth Russian Standard Vodka, right off of a ski! It is an experience not to be missed.

In the midst of Midtown, guests can kick back and unwind in Haven's personal chalets that come complete with individual fireplaces and faux-furs to keep guests warm. Snowflakes appear to dangle from the skies above plush velvet couches where patrons can view real snow falling nightly outside the tents courtesy of an hourly snow show.
